**AGENDA REPORT**

AGENDA DATE 12/07/04

AGENDA ITEM 4

WORK SESSION ITEM \_\_\_\_\_

**TO:** Mayor and City Council

**FROM:** Acting Finance Director

**SUBJECT:** Adoption of a Resolution Accepting the Report and Adopting Findings Related to Fees Collected for Development Projects That are Subject to the Requirements of the Mitigation Fee Act

**RECOMMENDATION:**

It is recommended that the City Council adopt the attached resolution regarding the City's compliance with certain provisions of the Mitigation Fee Act, sometimes referred to as AB 1600.

**BACKGROUND:**

It is common for local agencies to charge fees on new development to fund construction of capital facilities that will serve the development. The AB 1600 (Cortese) portion of the Mitigation Fee Act applies to fees charged in connection with the approval of development projects to defray cost of public facilities. It was enacted by the State Legislature in 1987, and applies to developer fees established, increased, or imposed on or after January 1, 1989.

In order to comply with the Mitigation Fee Act, the City must follow four primary requirements:

1. Make certain determinations regarding the purpose and use of a fee and establish a "nexus" or connection between a development project (or class of project) and the public improvement being financed with the fee;
2. Segregate fee revenue from the General Fund in order to avoid commingling of capital facilities fees and general funds;
3. For fees that have been in the possession of the City for five years or more, and for which the dollars have not been spent or committed to a project, the City must make findings each fiscal year describing the continuing need for the money; and
4. Refund any fees, with interest, for developer deposits for which the findings noted above cannot be made.

The City has complied with numbers 1 and 2 above from the outset since the funds collected are necessary to fund the cost of improvements, which benefit or will benefit the subject

development; the attached report enumerates compliance with numbers 3 and 4 for fiscal year 2003-04.

Findings have been made with respect to the portion of any fees remaining unexpended or uncommitted to a project. The findings identify the public purpose for which a particular fee was received, indicate the relationship between the fee and the purpose, and show the continuing need for the funds if the need exists. Refunds of the uncommitted or unexpended portion of fees are to be provided to the depositor for projects for which such need cannot be demonstrated.

Exhibit A to this report is a record of the fees received by the City since January 1989, currently on deposit, in connection with development projects that involve the construction or maintenance of public facilities (street improvements, utility relocations, maintenance districts) and are governed by AB 1600. Included for each applicable deposit are the name of the project and the depositor, the date and amount of the original deposit, the current balance in the deposit account, and a summary of the findings for each deposit.

Exhibit B provides detailed information for each of the summary findings listed on Exhibit A. The narrative includes the specific public improvements for which deposits were received by the City, the relationship between the developer's project and the public improvements; and an explanation of why the funds should be retained after five years if that is the case.

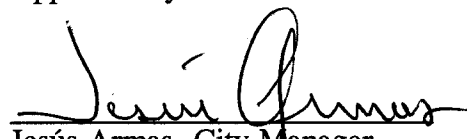

The Council is requested to accept the information regarding AB 1600 deposits contained in Exhibits A and B, and adopt findings as to those funds that remain unexpended five or more years after deposit.

The information contained in the Mitigation Fee Act compliance report has been provided to the Building Industry Association and the affected developers.
